

WORK SELFLESSLY – THE PATH OF A TRUE DE PAULIAN

Success is not just about achieving personal goals; it is also about **dedication, sincerity, and selfless effort**. The principle of **Nishkama karma** teaches us to work wholeheartedly without being attached to rewards or results. In our journey as students, adopting this mindset can help us grow into responsible, compassionate, and hardworking individuals.

At **De Paul**, we believe that selfless work is the key to personal and collective progress. When we focus on giving our best rather than worrying about results, we naturally excel in everything we do.
